

MINIATURE INSPECTION KIT.

A range of miniature illuminated search probes, ideal for the inspection of suspect packages and devices. The kit allows for thorough examinations to be carried out through small holes and apertures. The kit comes housed in a foam lined carry case and with a kit of spare lamps.

MINIATURE INSPECTION KIT. part no. IE008800

NATO stock number. 6665-99-671-5174

This kit contains:

- 2 Battery handle-medium (accepts 2 x C cells.)
- 1 Illuminated magnifier head with X8 lens.
- 1 Stayput flexible MES bulb light probe.
- 1 Fully flexible MES bulb light probe.
- 1 Cold light MES bulb light probe 380mm long.
- 1 7mm diameter curved light probe 75mm long.
- 1 7mm diameter curved light probe 150mm long.
- 1 7mm diameter curved light probe 250mm long.
- 1 3mm diameter light probe 50mm long.
- 1 3mm diameter light probe 150mm long.
- 1 3mm diameter light probe 200mm long.
- 1 10mm bore viewing sleeve 50mm long - to fit 3mm light probe 50mm long.
- 1 10mm bore viewing sleeve 150mm long - to fit 3mm light probe 150mm long.
- 1 10mm bore viewing sleeve 200mm long - to fit 3mm light probe 200mm long.
- 1 Straight extension for probes 380mm long.
- 1 65mm Round articulated mirror to fit MES probes.
- 1 38mm Round articulated mirror to fit MES probes.
- 1 Elliptical mirror-small to fit 7mm probes.
- 2 26mm Round mirror.
- 1 19mm Round mirror.
- 1 Recovery magnet.
- 2 Accessory holder-large, adapts 26mm and 19mm mirrors and recovery magnet to MES probes.
- 2 Accessory holder-small, adapts 26mm and 19mm mirrors and recovery magnet to 7mm probes.
- 1 Spare bulb box containing:
 - 2 Bulb for 3mm probe (shrouded filament.)
 - 2 Bulb for MES probes.
 - 2 Bulb for 7mm probes.
- 1 Fitted case.
